# DATA CENTERS

Providing industry knowledge, product expertise, & technological innovation over a broad portfolio of products and services to our customers across a wide range of industries and applications.

To achieve zero downtime, scale the data center to meet ever changing requirements and reduce energy costs you need the most reliable and efficient power and cooling infrastructure available.

## Modular & Scalable Data Center Equipment

Systems that grow and change with your modern Data Center.

## Traditional Data Center Equipment

Systems built around existing older equipment.

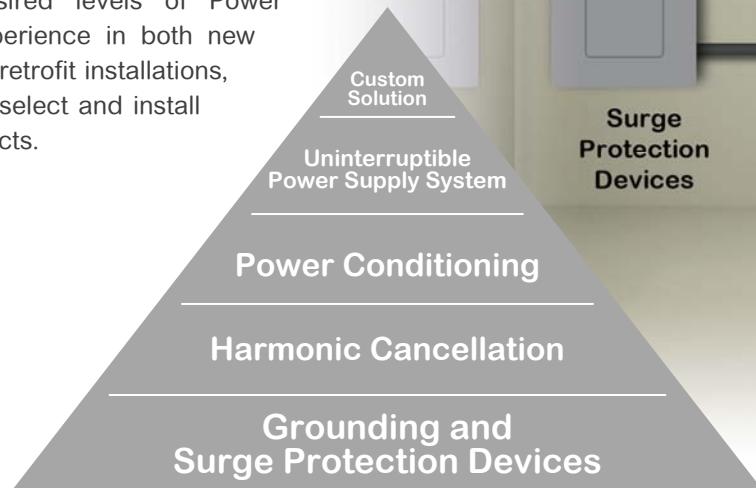

We can provide both  
Modular / Scalable and Traditional  
Data Center Equipment

# INDUSTRIAL POWER SOLUTIONS

Power Quality Specialists with expertise in your Power Quality needs.

Industrial Power Quality, doesn't just happen. It takes technical expertise, investment in products and facility coordination to achieve the desired levels of Power Quality. With experience in both new construction and retrofit installations, P3 can help you select and install the correct products.

We provide Industrial Power Quality Solutions

Power Factor Correcting Capacitors

Harmonic Mitigating Transformers

# Service Plans & Support Services

Service plans and support services that provide maintenance, parts, & service necessary to capture the best possible performance from your existing power system.

We offer customized, flexible, full-service packages that offer hassle-free system maintenance to improve uptime at predictable cost which include technical support, preventive maintenance, quick on-site response, and remote monitoring.

- ◆ Energy Management Services
- ◆ Power & Cooling Analysis
- ◆ Data Center Assessments
- ◆ Project Management
- ◆ Service Plans

We provide top quality  
maintenance service & support

# Power Quality Monitoring

System analysis and evaluation of power quality issues to provide solution recommendations for the best possible performance from your existing power system.

The ability to quickly identify and remedy power quality problems will help ensure metering accuracy, lengthen the life of electrical equipment and improve power system availability.

Our engineering technicians will help you understand your unique facility power system.

# Power Quality University

Providing an educational environment for hands-on training, testing, and evaluation of today's power quality solutions and data center solutions and equipment.

P3 is also a leader in customer education through Power Quality University (PQU).

The instructors who teach at PQU are highly qualified professionals and are all experts in the field.

Upon completion of a PQU program, students can obtain Continuing Education Credits (CEU's).

PQU Seminars are FREE!

And CEUs, BICSI & IEEB Credits  
are available.

# Low Cost Data Center Colocation

Complete Colocation facility with data center products, & services to meet all your colocation needs.

**Secure:** Restricted access with 24/7 monitoring.

**Connected:** Redundant fiber loop and access offers ultra fast handoffs to carriers and is fully IPv6 tested and network ready. Monitoring includes power, temperature, air flow, humidity, and moisture.

**Powered:** Low Cost Co-Lo offers clean, filtered power backed up by dual cross tie breakers, onsite generator and UPS System.

**Scalable & Modular:** Your rack space is customized according to your changing needs.

Our Low Cost Co-Lo was developed for IT Departments that need a basic, inexpensive, off-site data center.

## Low Cost Cō-Lo
